

SLINGS WITH HARDWARE - TYPE ONE

Type one slings with oblongs have alloy master links on each end. The oblongs have the ability to allow the slings to be used in a choker hitch. The oblongs offer a greater capacity at a less expensive price than steel triangles. If not damaged the hardware may be used after the webbing has worn. Available in nylon or polyester webbing.

ALL CLASS 75 & 98 WEBBING CONTAINS RED WARNING YARNS THAT, WHEN EXPOSED, INDICATE REMOVAL FROM SERVICE.

STOCK NO.	WEBBING WIDTH	OBLONG SIZE	RATED CAPACITY IN LBS.
