

SLINGS WITH HARDWARE - TYPE TWO

Type two slings have two triangle ends and can be supplied in either aluminum or steel. Slings with aluminum hardware are lighter in weight, but are made for one ply slings only. Steel hardware is available for one and two ply slings. If not damaged, the hardware can be re-used to build a new sling many times after the nylon has been worn.

ALL CLASS 75 & 98 WEBBING CONTAINS RED WARNING YARNS THAT, WHEN EXPOSED, INDICATE REMOVAL FROM SERVICE.
