

CLASS 75 - EYE & EYE SLINGS

TYPE THREE - FLAT EYE

TYPE FOUR - HALF TWIST EYE

Class 75 eye & eye slings are available in widths up to 6". Type three eye & eye slings have flat eyes at each end and conform to all basic rigging hitches. The flat eye aids in sliding the sling in and out of narrow places. The eyes may be buffered on the inside for longer life.

Type four eye & eye slings have eyes with a half twist to keep them open. The open eye makes for faster hitching in a choker and allows the operator to quickly slip the other eye onto the crane hook.

ALL CLASS 75 WEBBING CONTAINS RED WARNING YARNS THAT, WHEN EXPOSED, INDICATE REMOVAL FROM SERVICE.
